www.geelycambodia.com

“STARRAY”

is inspired by “Starry,” embodying a dazzling display of starlight, with a multitude of stars in the sky. This echoes the design language of Starray, expressing aesthetics and imagination.

Staray is also inspired by Geely’s concept car “Vision Starburst”, the first mass-produced vehicle grounded in this innovative design. The aesthetics of digital technology are conveyed through visual motifs such as interweaving, twisting, pulsing, and rays.

Based on this concept, with interstellar space serving as its core inspiration, Staray highlights futuristic and technological characteristics. At the same time, the application of astronomical concepts expresses our boundless imagination and aspiration for a cutting-edge future.
